

Les homophones lexicaux

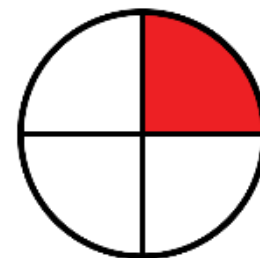

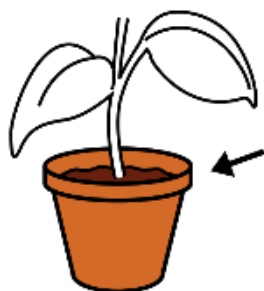

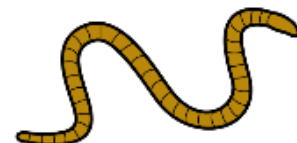

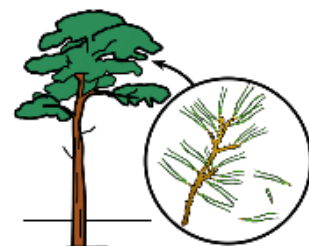

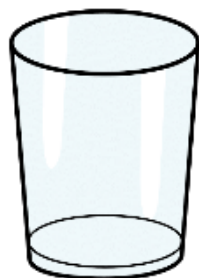

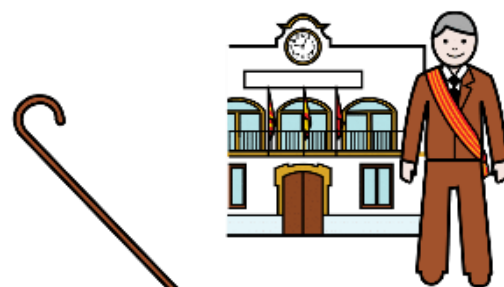

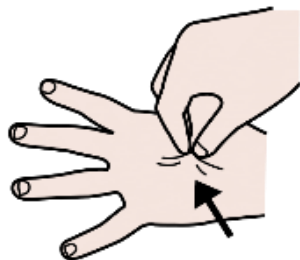

- Composition de l'activité :
 - 88 cartes mots (homophones)
 - 4 planches images
- Déroulement de l'activité :

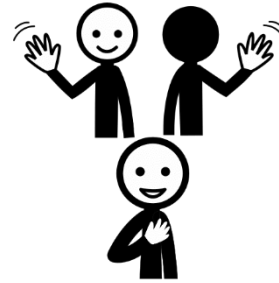

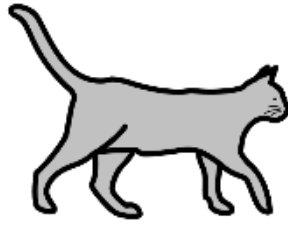

Les 4 planches sont rassemblées et disposées au centre de la table. Une fois fait, l'adulte propose une paire ou trio d'homophones (exemple : vert ; ver ; verre) à l'enfant. Lorsque l'enfant a pris connaissance des mots, il les place sur la/les bonne.s image.s.

Afin de faciliter la manipulation et pour éviter que les mots ne bougent sur les planches, je vous conseille de mettre des scratchs à l'arrière des mots et à côté des images.

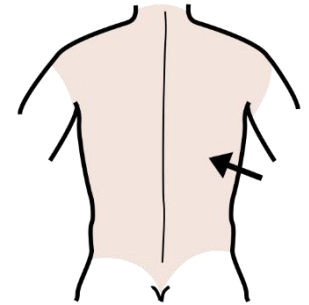

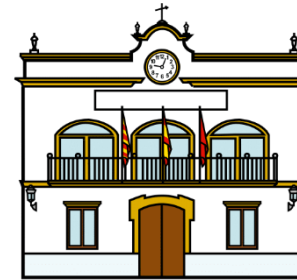

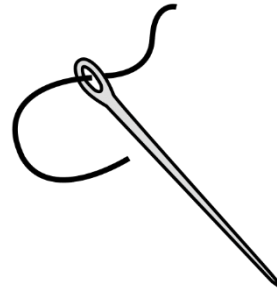

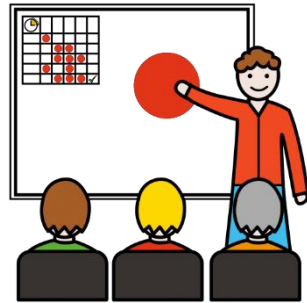

chaîne	pain	mer	maire	verre	peau	ancre
chêne	pin	mère	ver	vert	pot	encre
amende	balai	cane	car	champ	chat	chœur
