

## Conscience phonémique : Suppression phonème final

### ❖ Composition du fichier :

- ★ 20 planches identiques. Seul le fond/thème change et il y a 2 planches par thème : football, escalade, licornes, fête foraine, Pat' Patrouille, dragon ball Z, fées, cow-boy, fast-food et voyage.

### ❖ Composition du jeu :

- ★ Deux planches (thème au choix) sur lesquelles sont disposées 11 images.

- ★ 22 cartes 'image' :

- Boule, char, rouge, poireau, louche, porte, boucher, tableau, pile, coude, poule, poulet, pinceau, cils, bateau, tache, poussin, baleine, route, batte, pipe et anneaux.

### ❖ Déroulement du jeu :

Les cartes sont mélangées et disposées (face cachée) au centre de la table ou tout simplement dans un sac en tissu.

Chaque joueur choisit une planche et le plus jeune commence.

Il pioche une carte, la dénomme et supprime le dernier phonème. La suppression du dernier phonème permet d'obtenir un nouveau mot et l'image de ce dernier figure sur l'une des deux planches :

- Si l'image du nouveau mot obtenu se trouve sur sa planche alors il peut la cacher à l'aide de la carte.
- Dans le cas contraire, si l'image du nouveau mot obtenu se trouve sur la planche de l'autre joueur, il lui donne la carte pour que ce dernier puisse cacher l'image.

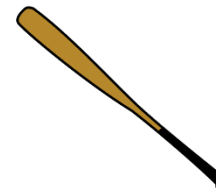

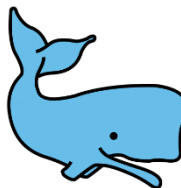

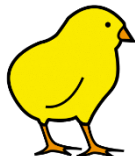

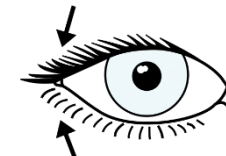

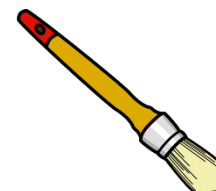

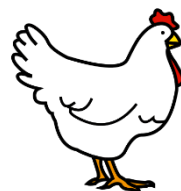

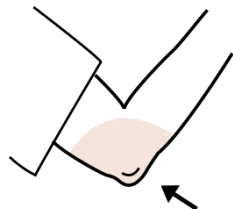

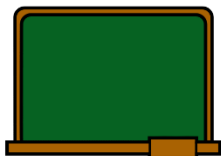

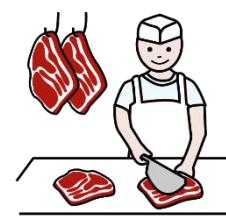

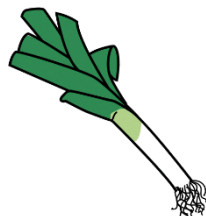

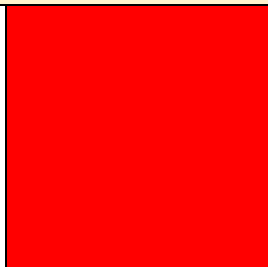

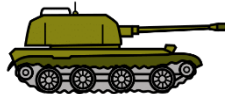

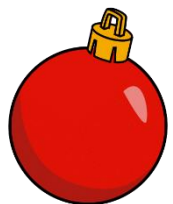

Voici un exemple :

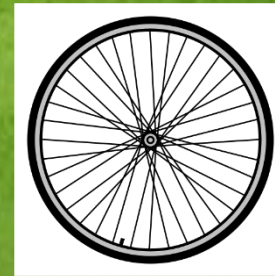

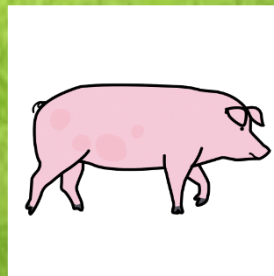

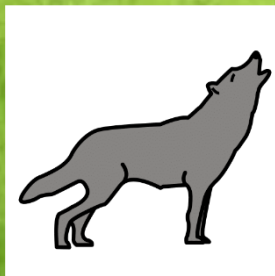

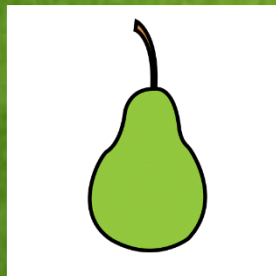

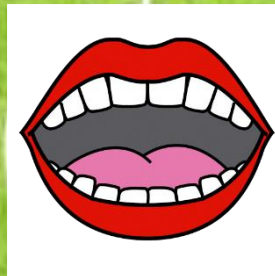

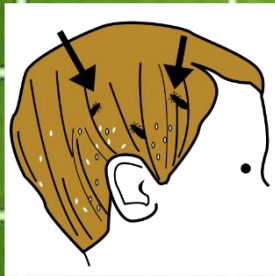

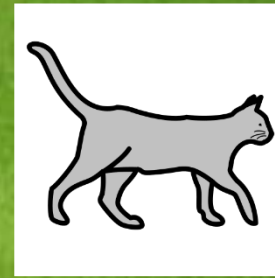

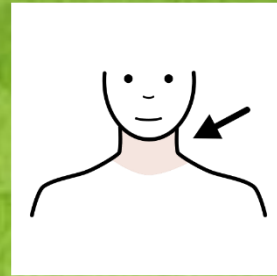

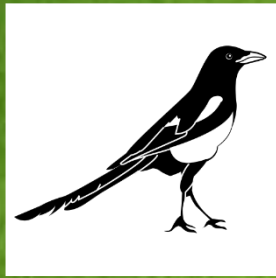

- Je pioche la carte « poussin » -> je supprime le dernier phonème, il me reste « pus » (pouce) -> je regarde sur mon plateau si j'ai l'image du mot obtenu « pouce ».

Une fois fait, c'est au tour du joueur suivant de piocher une nouvelle carte, de supprimer et de chercher, ...

 Le premier joueur qui parvient à remplir sa planche en cachant toutes ses images (11 au total) remporte la partie.

Cartes à découper
